

EN: Must use a ventilated waste system and ensure the bath is not fully sealed to allow an air intake to the air admittance vavle.

ES: Deben utilizarse un sistema de desagüe ventilada y asegúrense que la bañera no esta completamente sellada al suelo para permitir una entrada de aire a la válvula de aire.

DE: Muss an ein belüftetes Abwassersystem angeschlossen sein. Weiterhin darf die Wanne bei der Installation nicht vollständig versiegelt werden, damit eine Luftzufuhr zum Belüftungsventil gewährleistet ist.

IT: Deve essere usato uno scarico ventilato. Assicurarsi che la vasca non sia completamente sigillata perchè la valvola d'aspirazione abbia una presa d'aria.

FR: Nécessité d'un circuit sanitaire ventilé et veiller à ce que la baignoire ne soit pas totalement scellée, afin de permettre l'arrivée d'air vers le clapet d'admission d'air.
